

University Placement Opportunity at Opensoft Systems Ltd

Company Profile

Opensoft Systems specialise in providing a range of information technology solutions across the manufacturing, process and automated industries across the globe.

Our client base is diverse covering a range of Manufacturers, Production Processes to Waste Management, Power Generation and the Leisure Industry. In short, organisations who require automation of a process to improve the quality, efficiency, environmental and safety areas of their business.

Our range of virtualized products, built on our Active Virtualization Software (AVS), provide the ability for our clients to secure, manage and grow their Manufacturing IT systems. Our products provide full system redundancy, reduce client hardware usage onsite and remove the risk of hardware obsolescence, resulting in forced system upgrades.

In summary, our capabilities include;

- Control System Design and Development
- Virtualization for Manufacturing IT Solutions
- Disaster recovery solutions for Plant IT
- Project Engineering, Integration & Consultancy
- Control System Training & Support

Graduate Application/Control Engineering Positions – Placements

We have exciting opportunities available for placement engineers to join our dynamic Systems Engineering team based in Yorkshire. You must be enthusiastic, hardworking and keen to learn. The minimum length of the placement will be three months, with a possibility to stay with us longer after the placement has finished.

She/he shall assist with the configuration of SCADA, Database and PLC control systems working with one of our Senior Engineers. You shall be working with industry leading innovative technology built upon Opensofts AVS virtual platform software. Full guidance and training will be provided although initiative is key.

There will be the opportunity to develop systems for our projects in our engineering office in Knaresborough and assist with the commissioning of these systems at our clients sites, throughout the United Kingdom.

You will be working across a range of industries with some of the world's market leading blue chip companies. We have an excellent reputation for working in an open and collaborative way with all our clients, providing innovative and scalable solutions.

Please check out our web site at: www.opensoftsystems.co.uk for further information.
We look forward to hearing from you.
