

The Leadin logo is displayed in white text on an orange rectangular background.

**WE ARE LOOKING FOR
SOFTWARE
DEVELOPERS
TO WORK IN FINLAND,
UK, SPAIN OR GERMANY**

We are looking for experienced front-end and back-end developers to work together with our Service and UX designers in our international projects. We are using modern JavaScript-based technologies, namely Angular.js and Node.js.

Leadin teams are based in the UK, Finland and Germany. Projects are carried out globally. The company is continuously growing and is now looking to expand their operations to Madrid, Spain. This is done in search of local talent who would be interested to work in international projects either locally or with possibility to travel.

If you are interested, send in your application and CV with subject line **“Software Developer - Madrid”** to **rekry@leadin.fi**

**TO BE A PART OF #LEADINCREW,
YOU NEED:**

- / A degree in computer science or software engineering
- / Experience on web application development
- / Experience on JavaScript technologies (Angular.js for a front-end developer, Node.js for a back-end developer)
- / Confidence using GIT version control

ALSO KNOWLEDGE OF...

- / Working on an Agile/Scrum team
- / Automated software testing
- / CI environments and DevOps
- / Databases
- / Full-stack

...IS HIGHLY APPRECIATED.
