Company description :

EUROCONTROL, the European Organisation for the Safety of Air Navigation, is an intergovernmental Organisation with 41 Member States, committed to building, together with its partners, a Single European Sky that will deliver the air traffic management performance required for the 21st century and beyond. We help our Member States to run safe, efficient and environmentally-friendly air traffic operations.

Job description :

Purpose

Develop a practical web based document management system for airspace simulations

Main responsibilities

- * Acquire understanding of basic document management rules and best practices
 - * Make inventory of existing and required documentation
 - * Develop users requirements (version control, multiple users access, web based, ...)
 - * Analyse Agency available tools (e.g. Sharepoint, IBM CM synergy, ...) or alternative solutions (open-source, free or already available software solution)
-

Required profile :

Fields of studies : Scientific, engineering field or document management.

Good IT skills and knowledge of web based document management tools.

English and French are the working languages of EUROCONTROL. For this traineeship, fluency in oral and written English is required and a good knowledge of French. The knowledge of an additional language would be an asset.
