

Full stack Developer job description

Job description

Deveryware is a French company, a reference in France in emergency services and security projects for public administration, collaborating with the UPM in research projects within the EU Research Framework Programme, such as the Nexes project (<http://nexes.eu/>), which aims at defining the next generation of emergency services for the population.

In the context of this collaboration, we are looking for a developer willing to participate in the creation and implementation of tools for the GHALE platform, which implements the Pan-European Mobile Emergency App (PEMEA) standard for interconnecting 112 European emergency centers.

The candidate will join an agile team, with a DNA of research and integration of the latest technologies, working in a complete and advanced DEVOPS environment, always seeking the highest quality in the generated products.

Duration: 1 year (renewable) contract

Remuneration: €25K-€35K per year (full-time), according to value and experience provided

Location: UPM, Campus de Montegancedo / CAIT

Job responsibilities

The role is responsible for designing, coding and modifying web apps, from layout to function and according to the specifications. Integrating data from various back-end services and databases.

Job Duties

- Candidate must have a strong understanding of UI, cross-browser compatibility, general web functions and standards.
- The position requires constant communication with colleagues.
- Experience in working with distributed environments
- Deep expertise and hands on experience with Web Applications and programming languages such as HTML, CSS, JavaScript, JQuery and API's.
- Deep functional knowledge or hands on design experience with Web Services (REST) is needed to be successful in this position.

Skills

Proven working experience (2 years) in some of:

- Node.js
- Angular
- Native, hybrid or progressive web apps
- Javascript
- GIT

Familiarity with:

- JAVA
- MongoDB
- MySQL/PostgresSQL
- Docker

Valuable skills:

- Kubernetes
- AWS
- English
- French

If you are such candidate, we would be thrilled to hear from you.

Apply now

Should you be interested in this position please apply by sending your CV and a cover letter to jsoriano@fi.upm.es / bertrand.casse@deveryware.com, including in the subject line the reference "FULL STACK DEVELOPER POSITION".

By replying to this advertisement or sending your CV and/or other personal data, you are agreeing to having your data saved and managed by employees of both Deveryware and UPM for possible future reference in full accordance with the law.
