Description: We are looking for a solid junior developer to join our team. (More exactly you need a tertiary qualification and 1 to 3 years development experience. More experience is also OK). We offer a job with good personal skill and career growth perspective in a fast growing company. You will be guided by experience professionals in the development and support of a well structured modern product. You will have the opportunity to become part of the core team. You will be working full time at our offices. You may be required to travel to our customers and suppliers for brief periods.

*REQUIREMENTS

Minimum level of Studies: Graduated. We require a completed tertiary IT directed study of at least 2 years. Microsoft developer certification also suffice

Minimum years of experience: At least 1 year experience.

Skills and competences:

Mandatory skills:

- Driver license (car)
- English (all communication is in English)
- Applicable tertiary qualification. (University; Accredited college or MSCD)
- Microsoft .NET 4.0 framework
- C#

- IIS (Internet Information Server)
- Microsoft Visual Studio
- Relational Databases and SQL
- Object Orientation, Component based development principles and theory

Recommended Skills:

- MS Workflow Foundation Framework
- SharePoint Foundation Framework
- Tellerik controls
- Microsoft SQL Server
- UML (Unified modelling language)
- Experience working in an iterative development lifecycle.

In responding to this advertisement/call for candidates please enclose in your application letter the above list with a short note on your experience on each of these points.

Personal Skills:

1. Accuracy and diligence, this is about fixing problems properly, keeping to standards and plans etc.
2. Reliability. This is about pitching at work on time and all the like.
3. Communication, especially feedback and communication of exceptions before it becomes problems. You may also need to communicate to customers from time to time so this is important.
4. Intelligence and creativity. In our team you may have an alternate idea, if you can present it clearly and it is an improvement it will become the plan.

Notes: Do not apply if you obviously do not comply to the requested profile.

Please send your English letter of application, the above skill summary with your experience and short English CV including a recent photo via email to lidia@theprojectroom.es before 2nd February 2014.

You will receive an answer on your application before 8th February 2014. This may entail a telephone interview.

If you pass this point a final personal interview will be scheduled. The exact location will be coordinated with you beforehand (This may be in Madrid or Barcelona or even the Netherlands dependant on the situation). Should you need to travel for this interview your transport costs will be compensated.
